

ALLERGYcare

Description

Suspended particulate matters, gaseous toxins and allergens in the air are the main cause of environmental pollution which induce chronic obstructive lung disease in adults and children. Air pollution often attacks the nasal, throat and bronchial airways, resulting in frequent infections and complications.

Highly toxic gas molecules can lead to frequent or persistent cold, running nose, nasal block, throat irritation, wheezing and difficulty in breathing. ALLERGYcare is formulated to overcome the above hazards and ensures quick relief and prevents reoccurrence. ALLERGYcare can be used by all age groups.

Composition

Inula racemose	75mg	Glycimhiza glabra	25mg
Bambusa arundinacea	50mg	Zingiber officinate	20mg
Piper lognum	50mg	Viola odorata	15mg
